PROFILE

Technical Support Engineer at Terra Solar Philippines Inc. (under Meralco MGEN) and BSIT graduate majoring in Web Development, with over 5 years of experience as a freelance Full Stack Developer. Supports Windows and macOS users with Microsoft Entra ID, NinjaOne, and Quick Assist, and builds websites, POS and inventory systems, booking platforms, AI applications, and automation workflows. Known for clear communication with non-technical users and for delivering practical solutions that make teams and businesses more efficient.

EXPERIENCE

Technical Support Engineer
Terra Solar Philippines Inc.
Under Meralco MGEN
July 2025 – Present

- Support Windows and macOS endpoints remotely using NinjaOne and Microsoft Quick Assist.
- Manage user accounts, access, and devices in Microsoft Entra ID.
- Handle support tickets end to end: triage, troubleshoot, resolve, and escalate complex issues to the right teams.
- Investigate root causes of hardware, software, and network issues and document fixes for the team.
- Built a conference room booking system for Meralco MGEN with room scheduling, availability tracking, and reservations.

Software Engineer / Full Stack Developer
Freelance / Self-Employed
2021 – Present

Build websites, SaaS platforms, POS and inventory systems, AI applications, and automation workflows for small businesses.

- **ADZ Garage Management** – CRM, inventory, POS, scheduling, and reports for an automotive shop.
- **POS & Inventory Systems** – sales tracking, ordering, and real-time stock monitoring for Ma. Jesusa General Merchandise and Richbean Jaen.
- **CFS Jewelry Shop** – live-selling automation for order capture, inventory deduction, and customer management.
- **AI Image Generator** – AI image platform with prompt optimization, authentication, subscriptions, and image history.

IT Intern / OJT
InfoPro Business Solutions Inc.
January 2025 – May 2025

- Provided IT support for employees, troubleshooting hardware, software, and network issues.
- Supported Lopez Group board meetings.
- Developed responsive web applications (HTML, CSS, JavaScript) and Google Apps Script spreadsheet extensions to automate tasks.
- Developed a self-quality assurance system for the company's laptops.

Computer Technician
Freelance
2019 – 2025

Repaired, maintained, and upgraded computers and peripherals; installed and configured operating systems, software, and network setups; assembled custom PCs to client specifications.
